Project narrative in space below

Freebush City Park houses all of the recreation facilities that our town has. The playground is no longer appropriate for use by the various age groups that come to play. The City is seeking funds to replace the playground with two separate age appropriate play structures. The project will also include pour n' play surface instead of the traditional mulch surface for both.

Application Package must include:

- Pre-application form;
- Evaluation Criteria- provide additional narrative and appropriate documents as needed to earn maximum points;
- Resolution adopted by the applicant (see Appendix A for sample);
- Cost estimate;
- Preliminary site plan (if available);
- Plat, survey boundary map and/or legal description; and
- Location map.

Estimated Cost of Project: \$ 200,000

Grant Request: \$100,000
(Cannot Exceed 50%)

Pre-applications must include a discussion of each criterion to support point values. DNR Grants Administration staff will assign points based on reasonable and verifiable facts and not supposition. Points will be assigned in a way that provides for consistency in interpretation and application for all pre-applications in the scoring process.
