

Outreach Programs

Let us bring nature to you!

Hard Labor Creek State Park can provide your class or group with programs at your location.

With a maximum of 30 students per class, our bilingual Interpretive Ranger will engage your students with a 45-minute program.

School must be within 45 min from the park.

Cost: \$75 for the first class, \$45 for each additional class.

Please either call 706-557-3001 or email david.guzman@dnr.ga.gov for more information or to schedule an outreach program.

Casting Animal Footprints

Be a nature detective. Learn about the different clues that animals leave behind such as fur, footprints, scat, and others. Identify different footprints of some common Georgia animals. Make a plaster cast mold of a footprint to take home!

Grades 1-12

Owl Pellet Dissection

Kids will explore the contents of owl pellets, small packages of fur and bones coughed up by owls after they hunt. Using bone charts, they will identify various types of prey, and then explore an owl's food chain. Grades 1-7.

Oh Deer (Animal Habitat)

A fun game that will introduce students to the components of habitat and the limiting factors that influence the carrying capacity of deer populations. Explore predator-prey relationships through data collection and analysis. Grades 4-12.

Snakes LIVE!

Learn everything you need to know about our scaly friends. See and interact with live non-venomous snakes. Learn the differences between venomous and non-venomous. Become a Snake Expert! Appropriate for all audiences. Grades 1-12.

How Many Bears Can Live in This Forest?

During this physical activity, students will become "bears" to look for one or more components of habitat. Students will discover how a limiting factor can affect bear populations Grades 5-8
