

# NOTICE TO CAMPERS

## Level 1 Drought Response in Effect

The State of Georgia is currently under a **Level 1 Drought Response**, as issued by the Georgia Environmental Protection Division (EPD).

To help conserve water and protect our natural resources, the following measures are now in effect throughout the park:

### Water Use Guidelines:

- Avoid unnecessary water use whenever possible.
- Limit shower times and turn off water while brushing teeth or washing dishes.
- Do not leave faucets running unattended.
- Report any leaks or dripping fixtures to park staff immediately.

### Outdoor Water Use:

- Washing of vehicles, campers, or equipment by guests is prohibited.
- Use of hoses should be minimized and only used for essential purposes.

These small steps make a big difference in preserving water resources during dry conditions. We appreciate your cooperation in helping protect the environment and ensuring a safe, enjoyable experience for all visitors.

If you have any questions, please contact park staff.
