

With natural beauty, lakeside camping and cozy cottages, this secluded park is the perfect south Georgia retreat. It is best known for the refurbished Parrish Mill, a combination grist mill, saw mill, covered bridge and dam built in 1880 and now open for tours. Anglers and canoeists can explore the mill pond dotted with Spanish moss-draped trees and home to blue heron and white ibis. Hikers can stretch their legs on 7 miles of trails while searching for rare gopher tortoises, Georgia's state reptile.
