Located near the northern edge of the mysterious Okefenokee Swamp, this park is home to many fascinating creatures and plants, including alligators. Walking along the lake shore and nature trail, visitors may see carnivorous pitcher plants, the shy gopher tortoise, numerous oak varieties, saw palmettos, yellow shafted flickers, warblers, owls and great blue herons. The park's lake offers opportunities for boating and fishing. The park's championship 18-hole golf course features a clubhouse, golf pro, unlimited weekday play and senior citizen discounts. This is one of the few state parks named after a woman, and its name is richly deserved. Laura Walker was a Georgia writer, teacher, civic leader and naturalist who was a great lover of trees and worked for their preservation.
